

Call for Expert No ZO/2020/17

Solidarity Fund PL within the framework of the EU funded „EU4Skills” Programme and in accordance with art.4, point 8 of the law of the Republic of Poland of 29 January 2004 on public procurement invites interested experts to apply for a position/ assignment of:

Expert on career guidance policy

1. Background information

The EU4Skills programme is a multidonor programme funded by the EU and its member states: Germany, Finland and Poland. The aim of the programme is to assist the reform of TVET sector in Ukraine. Programme’s activities focus on modernization of the content of education and improvement of its quality as well as on the reform of VET governance.

Vocational education has been clearly designated in Ukraine as a regional responsibility, and both Regional Councils (elected bodies) and Regional State Administrations (executive bodies) now have the responsibility for developing strategies, allocating funding and ensuring operational management of regional VET systems. However, regional governments lack the experience, capacity and resources to not simply maintain the status quo but to introduce methods and approaches that would transform VET systems and institutions in line with the national reform principles, regional development priorities and the requirements of dynamically shifting regional economies and labour markets.

Solidarity Fund PL (SF PL) is a Programme’s partner organization and its work package under the EU4Skills Programme primarily focuses on strengthening capacities of the regions to manage their VET provision networks and on helping the regions to conduct evidence-based policies in the VET sector. This work package (referred later as “SF PL Work Package”) contains 5 major activities, namely:

- 2.11 – Development of Labour Market Intelligence System
- 1.2. – Development of 7 regional VET action plans
- 1.6. – Development of VET funding mechanism
- 1.7. - Development of VET budgeting mechanisms
- 2.10. – Support to development of career guidance service provision

Most of the abovementioned activities will be implemented in 7 focus regions of Ukraine. However, the models and solutions developed will also be promoted across the whole country.

Expert engagement under this assignment will be related to activity 2.10 – Support to development of career guidance service provision

The vocational orientation and career counseling system in Ukraine, where it relates to the TVET system, is in its nascent stage. As a result of this, approximately 80% of secondary school graduates go to universities after graduating, and the VET student population has decreased almost twofold over the past several years. Formally, the State Employment Service is responsible for providing career orientation and counseling services (Order # 2 of the Ministry of Social Policy of Ukraine as of January 03, 2013), but its mandate is limited primarily to the unemployed. State Employment Service has developed an on-line career orientation platform that offers general advice and testing of a person’s professional and soft skills. This can be found at <http://profi.dcz.gov.ua/about/>. In addition to this, Ministry of Education and Science, Ministry of Social Policy and State Employment

Service have signed a Memorandum of Cooperation career orientation and counseling on June 3, 2019.

However, while the basic understanding of the needs to strengthen this area exists, there are virtually no practical and systemic steps behind this. During February-April 2020, Solidarity Fund PL carried out an overall analysis of the state of the art within the career guidance domain, which identified a number of potential areas of methodological, curriculum development, and capacity building interventions at various levels and components of the Ukrainian education system that are needed to ensure a holistic approach for **integrating/ embedding career guidance services into schools curricula**. In addition to this, a number of practical tools and for career guidance and professional orientation need to be developed in partnership with relevant Ukrainian stakeholders and included into related institutional practices and standards. The inter-ministerial **Working Group** will be established in May 2020 in order to co-ordinate the work on career guidance system development. The Working Group will constitute major partner and the recipient of the consultancy service provided by the project.

2. The tasks under planned assignment are as follows:

Indicative duties and responsibilities

- a) To assist the project in developing specific policies, legislation, regulations and other framework documents identified in the needs assessment;
- b) To facilitate discussion (primarily through Working Group established) of such policies, legislation, regulations and other framework documents with the relevant national and regional stakeholders for the purpose of their further approval/adoption and integration into corresponding component of the education/TVET sector;
- c) To provide ongoing advice and recommendations as to the development and implementation of policy solutions that can ensure maximum efficiency in creating a comprehensive system of career guidance spanning across education levels and can ensure close integration of the developed policies, legislation, regulations and other framework documents with practical career guidance and professional orientation
